INTRODUCTION

HILL DIRECTORY CO., Inc., publishers of Southeastern Directories, present to subscribers and the general public, this, the 1937 edition of the Fayetteville City Directory. Two new features mark this edition. They are the inclusion of the wife's name in parenthesis following that of the husband, and the designation of tenant-owned homes.

Confidence in the growth of Fayetteville's industry, population and wealth, and in the advancement of its civic and social activities, will be maintained as sections of this Directory are consulted, for the Directory is a mirror truly reflecting Fayetteville to the world.

The enviable position occupied by HILL'S Directories in the estimation of the public, has been established by rendering the best in Directory service. With an unrivaled organization, and having had the courteous and hearty cooperation of the business and professional men and residents, the publishers feel that the result of their labors will meet with the approval of every user, and that the Fayetteville Directory will fulfill its mission as a source of authentic information pertaining to the city.

Four Major Departments

The four major departments are arranged in the following order:—

THE ALPHABETICAL LIST OF NAMES of residents and business and professional concerns is included in pages 21 to 292. This is the only record in existence that aims to show the name, marital status, occupation and address of each adult resident of Fayetteville, and the name, official personnel, nature and address of each firm and corporation in the city. A new feature of this section is the inclusion of the wife's name in parenthesis following that of the husband.

THE DIRECTORY OF HOUSEHOLDERS, INCLUDING STREET AND AVENUE GUIDE, covers pages 293 to 356. In this section the names of the streets are arranged in alphabetical order; the numbers of the residences and business concerns are arranged in numerical order under the name of each street, and the names of the householders and concerns are placed opposite the numbers. The names of the intersecting streets appear at their respective crossing points on each street. A new feature of this section is the designation of tenant-owned homes.

THE BUYERS' GUIDE, beginning opposite page 356 and separately paged from 1 to 24, printed on tinted paper, contains the advertisements of leading manufacturing, business and pro-

fessional interests of Fayetteville. The advertisements are indexed under headings descriptive of the business represented. This is reference advertising at its best, and merits a survey by all buyers eager to familiarize themselves with sources of supply. In a progressive community like Fayetteville, the necessity of having this kind of information immediately available, is obvious. General appreciation of this fact is evidenced by the many reference users of this City Directory service.

THE CLASSIFIED BUSINESS DIRECTORY is included in pages 357 to 400. This department lists the names of all business and professional concerns in alphabetical order under appropriate headings. This feature constitutes an invaluable and indispensable catalog of the numerous interests of the community. The Directory is the common intermediary between buyer and seller. As such it plays an important part in the daily activities of the commercial and professional world. More buyers and sellers meet through the Classified Business Directory than through any other medium.

Municipal Publicity

The Directory reflects the achievements and ambitions of the city, depicting in unbiased terms what it has to offer as a place of residence, as a business location, as a manufacturing site and as an educational center. To broadcast this information, the publishers have placed copies of this issue of the Directory in Directory Libraries, where they are readily available for free public reference, and serve as perpetual and reliable advertisements of Fayetteville.

The Fayetteville Directory Library

Through the courtesy of the publishers of the Fayetteville City Directory, a Directory Library is maintained in the offices of the Fayetteville Chamber of Commerce, for free reference by the general public. This is one of more than 450 Directory Libraries installed in the chief cities of the U. S. and Canada by members of the Association of North American Directory Publishers, under whose supervision the system is operated.

The publishers appreciatively acknowledge the recognition by those progressive business and professional men who have demonstrated their confidence in the City Directory as an advertising medium, with assurance that it will bring a commensurate return.

3,224 light meters.

Building permits, 1936, \$300,000.

40 miles paved streets.

20 miles unpaved streets.

2,560 acres city property.

2,326 telephones.

Population:

Estimated population of city, 15,000.

Estimated population of metropolitan areas, 20,000.

FAYETTEVILLE, N. C.

Settled by Scotchmen in 1739. Located at the head of Navigation on the Cape Fear River, 115 miles from the Sea. In the center of an extensive area of beautiful scenery and prosperous smaller towns, villages and farms.

A trading center of importance and an Inland Port. Population about 18,000, an increase of 49.7% in ten years. Modern and high-class schools, large old churches of many denominations, theatres, hospitals, wide streets, extensive business establishments and manufacturing plants. Altitude at "OLD MARKET HOUSE," 104 feet. Mean temperature 61; no extremes of heat or cold. Seldom any snow. Abundance of pure soft water. Rolling country traversed by streams with occasional small lakes. Very healthful and delightful place to live the year around either in the city or country. Named for General LaFayette who

COURT HOUSE

HIGH SCHOOL

ST. JOHN'S EPISCOPAL CHURCH

visited his namesake in 1825. People are friendly, hospitable, and chivalrous, retaining the spirit of the Old South.

Main points of interest are: "OLD MARKET HOUSE," situated in the square; McNEILL'S MILL (1765); LIBERTY POINT where 39 patriots adopted a Declaration of Independence 13 months before Philadelphia; CROSS CREEK, where two creeks crossed each other without serious intermingling of their waters; home of FLORA MACDONALD during the Revolutionary War; site of the United States Arsenal which was captured by the Confederates at the beginning of the Civil War and used for manufacture of arms and munitions until destroyed by General Sherman's army in 1865.

McNEILL'S MILL

RAILROADS AND PAVED HIGHWAYS diverging in all directions. FORT BRAGG, 10 miles west, the largest artillery post in the world, 28 miles long, 3 to 8 miles wide, contains 120,000 acres. A delightful place to visit. With the Cape Fear River open to navigation, a wide range of manufacturing and distributing could profitably be established here, because of raw materials such as cotton, tobacco, and timber being plentiful and close at hand, abundance of pure soft water, low cost of electric power, and reasonable rentals on buildings. Reasonably priced property can be had for homes within the city and for rural estates in the beautiful surrounding country.

FIRST PRESBYTERIAN CHURCH

With the Cape Fear River open to navigation, Fayetteville is a recognized Inland Port which will result in reduction in transportation cost to a large territory within the State and to and from all Seaboard cities. Fayetteville has numerous desirable

SCENE OF CAPE FEAR RIVER AT FAYETTEVILLE, N. C.

locations along the railroad tracks and adjacent to the River terminal. It has a trade area of 50 miles in all directions in which are a number of small and prosperous towns. The principal farm crops are cotton and tobacco, supplemented by an extensive lumber business.

The elevation above sea-level at the "Old Market House" is 104 feet, gradually increasing in all directions and the climate is mild and is subject to no extremes of heat or cold.

The EYE is seventeen times
stronger than the EAR.

Research has proven that im-
pressions received through the
eye are seventeen times more
effective than those received
through the ear.

Your advertisement in the City Directory reaches
the vision of your prospects all over the city 365 days
in the year, because some one is using it every hour
in the day.

Hill Directory Co., Inc.

PUBLISHERS

8 N. 6th St. (4th Floor)

RICHMOND, VA.

When You Want to Know:

- Where a person lives.
- What his occupation is.
- Who lives at a certain number on a street.
- Where a street is located.
- The correct spelling of a name.
- The officers of a corporation.
- The partners in a firm.
- The solution to any of scores of problems
that pop up unexpectedly to annoy and
baffle you.

**You Can Quickly
Find the Answer in the
City Directory**

The City Directory

represents the City and its
institutions in every cor-
ner of these United States

Are You Properly Represented in It?

The Classified portion
catalogues the professions
and goods handled here

ARE YOU LISTED UNDER YOUR PROPER
HEADING SO THE PROSPECTIVE
BUYER CAN FIND YOU?

HILL'S

FAYETTEVILLE

**Directory of Householders, Occupants of
Office Buildings and Other
Business Places,**

INCLUDING

**A Complete Street and Avenue Guide
1937**

Copyright, 1937, by Hill Directory Co., Inc.

In the following list the named streets are arranged in alphabetical order, followed by the numbered streets in numerical order, the intersecting street-being shown. The number of each building on the street is given in numericas order, and opposite the number is placed the name of the occupants or housel owner or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable, in apartment homes the number denotes the number of the apartment. In all streets both sides of the street are included in one list. The profession or business of individuals or firms is given only at their respective place of business; to find occupation of others refer to Alphabetical List of Names.

*** between two intersecting streets denotes there are no houses between them on that particular street.

(c) denotes colored.

The symbol (©) following a householder's name indicates that we have received information during the canvass that the house is owned by some member of the family, but as the publisher cannot and does not guarantee the correctness of the information furnished, nor the complete absence of mistakes, no responsibility for errors can be or is assumed, nor can the publisher furnish further information than that shown.

CITY DIRECTORY USES

1. SALES PROMOTION:

a. Sales Analysis—

Comparing present amount of business obtained in a given area with possible maximum business in that area. The Householders' Directory shows the classes of business located on a street, in office buildings, in sections of the city, etc. In checking up salesmen's calls on business in an assigned territory the directory presents a picture of how many places have not been reported upon, and shows a ready list of prospects for your goods or service.

b. Leads—

Determining proper official to approach for sales interview. The alphabetical listing for each business and professional concern, shows the names of the owners, partners or officers.

c. Selected districts—

Determining parts of city best suited for increasing business. The Householders' Street Directory shows the exact type of business or residences along each street of the city—and shows if the occupant of the home is the owner.

d. Building mailing lists and direct mail campaigns—

1. **List of local people (Neighborhood List)** within a given radius of Business location. On a city map, draw a circle to include the territory you wish to cover in your neighborhood list. From the map you can obtain the name of each street with intersections in the circle you have drawn. In the Householders' Street Directory you will find the correct name of the occupant at each house, or building on these streets. This will give you a 100% list of the territory desired.
2. **Lists of business houses and the professions**—The business directory at the end of the book classifies every business and profession according to the nature of the business. Complete lists such as doctors, lawyers, printers, garages, auto dealers, furniture stores, contractors, etc., can be found in this classified directory section.
3. **Vocational Lists**—Such as clerks, stenographers, telephone operators, carpenters, salesmen, purchasing agents, laborers, etc. The alphabetical directory shows the occupation of every individual in the city.

Run over the alphabetical pages—check marking the persons whose occupation is the one wanted for your list. This will give you a complete and accurate list for the entire city.

2. CREDIT:

a. Verifying customer's statements and information.

b. Information about customer.

Correct name, address, where employed and wife's name is given in the alphabetical directory for every individual. Whether he rents or owns home is usually shown in the Householders' Directory.

c. Determining character and stability of applicant for credit.

This directory gives his present occupation and residence. By referring to each yearly edition of the directory for the past few years, it is quickly determined whether the applicant holds the same job and residence, or flits from one job to another and one residence to another. After the new directory is delivered to you keep the old one on file. Never destroy it. You'll find old ones invaluable in checking your past records.

FOR EVERY BUSINESS

d. Identifying applicant and applicant's references.

The alphabetical directory gives complete information for each individual. (See Information about customer.) The references given by the applicant for credit, can be identified in the same manner—who they are, what position they hold, etc.

e. Collecting accounts.

Tracing and locating debtor. Locating other members of debtor's family or relatives.

3. DELIVERY AND SHIPPING:

a. Routing—laying out route for delivery.

Use description of streets in the Householders' Street Directory, with an indexed map of the city for locating and laying out delivery route.

b. Obtaining correct addresses.

Where numbers on shipping instructions are not plain, or only street is given, the correct number can be found in the alphabetical or Householders' Street Directory.

c. Locating streets, buildings, un-numbered houses.

A full description of every street—with location is given in the Householders' Street Directory. When the address given is an apartment or building without street and number being given, the alphabetical section will give you the correct street and number for that building. Many buildings on streets are not numbered—or badly numbered—making it difficult to find the building wanted. The Householders' Street Directory shows the location of the buildings along the streets.

4. PURCHASING:

The complete classified business section in the back of this directory makes available all sources of goods wanted; assists in selection of most reliable and satisfactory firms to deal with; the nearest companies to facilitate delivery of purchases, and determining the proper official or firm to deal with. The standard classified headings are complete and show all firms under the proper headings. There are many special headings marked with an asterisk (*) showing firms in display type. These firms are progressive and desire a more complete classified representation of their products.

5. GENERAL INFORMATION:

The Alphabetical Directory lists—Persons' full name and correct spelling, occupation, where employed, street address of residence, if married gives wife's name, head of house or roomer, renting or owns home. Lists all corporations showing officers, all partnerships showing partners, all individual business showing proprietor. All public officers, clubs, associations, etc.

The Householders' Street Directory shows every street—a description of its location, all occupants on each street, the ownership of the property and all intersecting cross streets.

The Classified Business Directory shows all business in the city arranged under heading most descriptive of the nature of the business.

The Sign over your door

tells the passer-by that you are there ready to serve him.

But you also want to tell people, in all parts of the community, where you are and what you do.

The sign is only seen, however, by the small portion of the population who pass your way. Being fixed, it cannot reach out and tell somebody, a good prospect, on the other side of town about your business.

But

Your Directory Advertising

*is before the
entire community*

It directs buyers from all parts of the community to your business and to any particular service which they may require.

The advertisers stand out as the leading and permanently progressive firms of the community.

You should make it easy for people to find you by putting in the directory such information as a buyer wants to know.

For FREE suggestions on how to make your advertising most effective write—

Names Appearing in Black Letters

IN THIS DIRECTORY are the names of those people who ACCOMPLISH THINGS and are entitled to favorable consideration, if for no other reason than their public-spirited support of measures which make for progress. They represent that ENERGY AND PUSH so essential to the commercial prosperity of the City, and in dealing with them no mistake will be made. The publishers are honored in thus making them better known to the public.

Do you realize that a City Directory advertisement is a testimonial to the permanency, the stability, of the advertiser?

That's the sort of concern all of us want to patronize, because we know when they sell us merchandise they are behind it in every way, today, tomorrow, and for the years to come.

"Fly-by-night," "fire-sale" and other temporary or *"get-rich-quick"* concerns rarely appear in the City Directory.

And it is a noteworthy fact that the concerns which advertise one year in the city directory are there again next year. 90% of directory advertising is renewed.

Directory advertising is profitable. In connection with the classified business headings it is doubly effective.

May we explain how and why it will pay you?

The Publishers of this Directory

Advertising Fayetteville

Do you know that a copy of this Directory of Fayetteville is being placed in the Directory libraries and among the commercial bodies, Business Men's Clubs Chambers of Commerce and the larger business institutions throughout the United States?

No other medium on earth can convey so complete and comprehensive an index of the city, its various industries, its business, educational and religious institutions, its social life and its people.

No other medium can tell so fully of its wonderful growth, its opportunities and its possibilities for the future.

The publishers are doing everything possible to make this Directory a representative city catalog of Fayetteville.

**Are you as prominently represented
as you should be?**

Hill Directory Co., Inc.

PUBLISHERS

8 North Sixth Street (4th floor), RICHMOND, VA.

MORE GOODS
ARE BOUGHT AND SOLD
THROUGH THE
CLASSIFIED BUSINESS LISTS
OF THE
DIRECTORY
THAN
ANY OTHER MEDIUM
ON EARTH

The EYE is seventeen times stronger than the EAR.

Research has proven that impressions received through the eye are seventeen times more effective than those received through the ear.

Your advertisement in the City Directory reaches the vision of your prospects all over the city 365 days in the year, because some one is using it every hour in the day.

Hill Directory Co., Inc.

PUBLISHERS

8 N. 6th St. (4th Floor)

RICHMOND, VA.

This Publication Is The Product of a Member of

Thus assuring you the ultimate service that skill and care can produce in the way of City Directories or other reference media.

The following "Standards of Practice," adopted at the inception of the Association of North American Directory Publishers in 1898, and strictly adhered to over the years, is your guarantee of satisfactory Directory Service.

The publisher of a Directory should dedicate his best efforts to the cause of business uplift and social service, and to this end pledges himself:

1. To consider, first, the interest of the user of the book.
2. To subscribe to and work for truth, honesty and accuracy in all departments.
3. To avoid confusing duplication of listings, endeavoring to classify every concern under the one heading that best describes it, and to treat additional listings as advertising, to be charged for at regular rates.
4. To increase public knowledge of what Directories contain; to study public needs and make Directories to supply them; to revise and standardize methods and classifications, so that what is wanted may be most easily found, and the Directory be made to serve its fullest use as a business and social reference book and director of buyer and seller.
5. To decline any advertisement which has a tendency to mislead or which does not conform to business integrity.
6. To solicit subscriptions and advertising solely upon the merits of the publications.
7. To avoid misrepresentation by statement or inference regarding circulation, placing the test of reference publicity upon its accessibility to seekers, rather than on the number of copies sold.
8. To co-operate with approved organizations and individuals engaged in creative advertising work.
9. To avoid unfair competition.
10. To determine what is the highest and largest function of Directories in public service, and then to strive in every legitimate way to promote that function.
